

THE NEW DEFINITION OF Power Walking

Kenko mSteps™ insoles feature relaxing massage nodes, extraordinary comfort, the Nikken DynaFlux® operation that acts like a magnetic field generator in your shoe. Let mSteps show you what a “power trip” is all about.

Kenko mSteps™

With DynaFlux® Technology

Quick Reference Flyer

NIKKEN INTRODUCED THE FIRST MAGNETIC INSOLES IN 1975.

Ever since, Nikken research and development continues to lead in advanced engineering and superior features found nowhere else. Only Kenko mSteps combine DynaFlux Magnetic Technology, for a stimulating massage surface.

INCREASED MAGNETIC COVERAGE

- DynaFlux places individual magnets in polar opposition (positive or negative poles facing each other) at several points.
- Magnetic field is intensified, producing a flux path that extends farther from the surface.
- DynaFlux is the only technology using permanent magnets that can accomplish this, without requiring an increase in gauss strength.
- The multiple angles afford 100% magnetic coverage.

WORKS AS YOU WALK

- DynaFlux allows each magnet a precisely controlled degree of movement.
- When applied against a surface, will cause slight shifts in angle, as the opposing magnets change position relative to each other.
- Repeated action creates a dynamic magnetic field.

COMFORTABLE & STRONG

- Raised surface points provide the refreshing sensation of a foot massage when walking, standing or sitting — all day.
- Shock-absorbing material promotes increased comfort.
- Low-density and high-density polyethylene is durable and long-wearing.

Kenko mSteps™

ITEM CODE	SIZE
#3053	Small (Women)
#3054	Large (Men)

FEATURED NIKKEN TECHNOLOGY
DynaFlux Magnetic Technology, Nikken massage effect

MAGNETIC STRENGTH
900 gauss

MATERIALS CONTAINED IN PRODUCT
Ferrite magnets, low-density polyethylene, high-density polyethylene

HOW TO USE
Trim to fit if necessary. Insert into shoes.

CARE INSTRUCTIONS
Surface clean with a damp cloth moistened with a mild detergent or hand wash in warm water with a mild detergent. Air dry.

Caution: If you use an electronic medical device such as a pacemaker, have a magnetically sensitive surgical implant, are in the first trimester of pregnancy or have health problems consult a physician before using magnetic products. Not intended for use with running shoes, or any other athletic shoes where feet may be subjected to high impact. When cutting insoles to fit, trim carefully and remove sharp edges or projections. If discomfort or irritation occurs, discontinue use and consult your medical professional.
